

THINGS2DO 28nm FDSOI Training

ST Microelectronics, Grenoble, France

28- 29 June 2017

DATE:

28nm FDSOI training will be held in Grenoble on June 28th and 29th, 2017, attendance is mandatory on these 2 days.

AGENDA:

Wednesday June 28th: (9:30am – 5:45pm)

- Technology Overview
- Analog/RF circuits: benefits of FD-SOI technology
- 28FDSOI strategy offer
- DK structure & Content

Thursday June 29th: (9:00am – 4:15pm)

- FE Simulation, Model & corner use
- BE Flow, Physical Verification (DRC, LVS)
- BE Flow, Parasitics Extraction (PEX), Post Layout Simulation (PLS)
- With demos.

MAXIMUM ATTENDEES:

25 people: Maxi. 2 persons by Institution.

REGISTRATION:

The registration is free of charge for invited partners. Registration and attendance is mandatory during these 2 days. Sign-up will be on a first come first serve basis.

On-line Registration Form at:

<http://cmp.imag.fr/about-us/things2do-28nm-fdsoi-training-28-29-june-2017.html>

VENUE: ST Microelectronics, Grenoble.

Address: **12 Rue Jules Horowitz, 38000 Grenoble.**

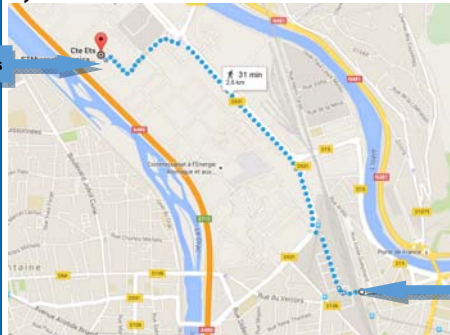

Phone: +33 4 76 58 50 00

Access: to/from CMP/STMicroelectronics

The airport shuttle stops at "Presqu'île" (walking distance to ST).

By foot (around 30 min) By tram: line B (green line, around 20 min) + walking distance in blue.

By foot:

By tram B

This Training is funded and organized in the Frame of the THINGS2DO EU project.
